\* The DVD, *Nourish the Body and Soul* focuses on increasing resident choice, accessibility and pleasure in dining across all four stages of nursing home transformation. Even if you are just beginning to dip your toes into culture change, the dining process is a great place to start. Small changes can have a big impact on your residents' autonomy and quality of life. And it can stimulate *Next Steps* for your organization if you've already made serious improvements. More than twenty facilities from California to Maryland are represented in this comprehensive look into methods of transforming the dining experience.

Tuition: \$120 for one Registration

\$ 99 each if 2 or more from same facility

Send 5 participants for \$495 and receive a free DVD: *Nourish the Body & Soul* (valued at over \$100)\*
